*******HELP KEEP OUR WATER CLEAN – CLEAN UP AFTER YOUR PET*******

Animal waste from pets can pollute our waters. It is required that animal solid waste be immediately and properly disposed of in order to prevent high concentrations of nutrients, bacteria and disease causing micro-organisms from entering our rivers, lakes and even drinking water.

When walking your pet, please follow our Ordinance by picking up the waste, wrapping it and disposing into the garbage or unwrap and flush down the toilet. Thanks for doing your part in keeping our waters clean!
