Notice of Filing and Public Hearings for Basic Generation Service
Charges Procured by JCP&L on behalf of its Basic Generation
Service Customers
and

Notice of Proposed Recovery through its Basic Generation Service
Charges of Costs Resulting from Statewide Auction for Basic
Generation Service

In The Matter Of the Provision Of Basic Generation
Service For The Period Beginning June 1, 2015
BPU Docket No. ER14040370

TAKE NOTICE that, on July 1, 2014, Jersey Central Power & Light Company (JCP&L) filed a proposal (Annual Proposal for Basic Generation Service (BGS) Requirements to be Procured Effective June 1, 2015) with the New Jersey Board of Public Utilities (Board) requesting that the Board approve the procurement of BGS supply through a statewide competitive auction process with new BGS charges to become effective June 1, 2015. BGS is provided to all JCP&L customers who do not procure their electric supply requirements from a third party supplier.

The New Jersey Electric Distribution Companies (EDCs), such as JCP&L, are mandated to provide BGS in accordance with the requirements of the Electric Discount and Energy Competition Act (Act). BGS is currently procured through a statewide competitive auction process in which all of the EDCs seek offers for BGS supply from electric generation suppliers. In this auction process, electric generation suppliers bid in a descending-clock auction on specified portions of the electric requirements for BGS customers for each of the EDCs. The Board has approved this type of auction for each year since 2001, and has found that this auction process meets the statutory requirements of the Act.

On September 29, 2014, a hearing will be held at the Board's Trenton office on the BGS proposals. At the Board Agenda Meeting of November 21, 2014, the Board is expected to rule on the EDCs' BGS proposal.

The maximum starting price for the next auction to procure BGS supply for customers eligible to receive BGS at fixed prices (BGS-FP) has not yet been determined. For the BGS-FP auction conducted in 2014, the maximum starting price for BGS-FP supply was 14 cents per kilowatt-hour. The final price for BGS-FP supply from that auction was 8.444 cents per kilowatt-hour for a 36-month supply period. This final price is blended with the prices procured for the previous two auctions to develop the BGS-FP rate to be paid by BGS-FP customers beginning June 1, 2015.

The maximum starting price for the next auction to procure BGS supply for commercial and

industrial customers eligible to receive hourly-priced BGS (BGS-CIEP) has not yet been determined.

The final prices for the BGS supply procured in the 2015 BGS-FP and BGS-CIEP auctions may be higher than or lower than the auction clearing prices obtained in the 2014 auction. Auction prices are converted to customer charges, which may be higher or lower than current charges, depending on the outcome of the auctions, consistent with market conditions. BGS rates also include network transmission charges set by the Federal Energy Regulatory Commission (FERC). BGS-FP and BGS-CIEP rates may rise to reflect any increases in these FERC network transmission charges.

Customer classes eligible to be served under the BGS-FP rate include customers served under JCP&L's distribution rate schedules RS, RT, RGT, OL, SVL, MVL and ISL, and customers served under JCP&L's distribution rate schedules GS and GST with a peak load share of less than 500 kW. JCP&L customers served under distribution rate schedules GS and GST with a peak load share of 500 kW or greater, and JCP&L customers served under distribution rate schedules GP and GT, are only eligible to be served under the BGS-CIEP rate.

PLEASE TAKE NOTICE that the Board has scheduled the following date, time and location for a public hearing on the above filing so that members of the public may present their views. The hearing will continue until all public witnesses are heard.

Time: 1:00 PM, September 24, 2014
Location: Freehold Borough Municipal Building
Room 114
One Municipal Plaza
(Schanck Rd. at Stillwells Corner Rd.)
Freehold, NJ 07728

Customers may file written comments with the Secretary of the Board of Public Utilities by October 7, 2014 at 44 South Clinton Avenue, 9th Floor, PO Box 350, Trenton, New Jersey 08625-0350, ATTN: Kristi Izzo, regardless of whether or not they attend the public hearing.
